Thanks to Wayne Mcphail for the well-researched and clearly-presented talk last Tuesday and for allowing us to continue to read and to digest what he told us.

Websites

**Federal Government’s request for AI strategy feedback.** The federal government’s site stops taking feedback at the end of October

<https://tinyurl.com/AIPublicChoice>

**Campaign Control AI.** An excellent UK-based site with lots of plain language information about the danger of super intelligence unchecked.

Statement on Superintelligence You Can Sign

<https://superintelligence-statement.org/>

Books

**Careless People** by Sarah Wynn-Williams. A revealing look at the selfishness and recklessness of Facebook/Meta

**Empire of AI** by Karen Kao. A deep dive into Open AI and how AI companies behave like historical empires

**If Anyone Builds It, Everyone Dies: Why Superhuman AI Would Kill Us All.** by Eliezer Yudkowsky and Nate Soares. A cautionary treatise on the dangers of a misaligned super intelligence.

**Podcast on the History and Future of AI, The Last Invention** .Very understandable and well-reported <https://podcasts.apple.com/us/podcast/the-last-invention/id1839942885>
